The Ford Meter Box Co., Inc. has been sending a portion of the generated TCLP hazardous foundry sand for treatment to a TSD and thus disposing as a non-hazardous solid waste. There is also a switch to no-lead brass taking place that should reduce the amount of hazardous constituent making it's way into the wastestream.

"I Certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

Sincerely,

Christopher J. Shanks
Sr. Vice President and General Manager
